THE EASTERN QUESTION.—On Wednesday, a meeting, convened by Chartists, was held in the Temperancehall, to urge upon Government the necessity of more decisive steps being taken by England in the quarrel between Turkey and Russia; Mr. Sharp occupied the chair. The meeting was addressed by Mr. Robinson, of Wilsden, who urged the adoption of a petition to the English Government to aid Turkey more heartily. Mr. Priestman and Councillor Rawson spoke in favour of peace. No decision was pronounced, as the meeting did not consider itself possessed of sufficient information; but the committee were desired to convene another meeting when sufficient light had been shed upon the question. is to be held in this town, at which E. Miall, Esq., M.P., is expected to be present. The committee are negociating with the leading advocates of the cause to obtain their services on the occasion. BRADFORD FLORAL SOCIETY .- The sixth annual dinner of this society was held at the Manor House Inn, on Friday evening, when fifty persons sat down; Mr. Bennett

was chairman, and Mr. J. B. Hammond was vice-chairman. A number of toasts were given. Mr. Barratt, of Wakefield. was the principal speaker. This society has made great progress, especially during the past year. It is contemplated to purchase a magnificent marqueé for the use of the society, from which a considerable saving is expected to accrue. GRAND MASONIC BALL AT ST. GEORGE'S HALL. -A provincial grand lodge meeting of the masonic body took place on Wednesday, in the refreshment room of St. George's Hall, and at its conclusion, the company adjourned to the Exchange Rooms, where they partook of a repast

provided by Mr. John Lupton, of the Talbot Hotel. A number of loyal and masonic toasts were drunk on the occasion. In the evening a grand ball was held in St. George's Hall, of which the proceeds have been devoted to the maintenance of the masonic ward in the Bradford Infirmary and other masonic charities. The lady patronesses were the Countess of Zetland, the Countess of Yarborough, Lady Loudesborough, Lady Goderich, and Lady Augusta Milbank; the patrons, the Earl of Zetland, the Earl of Yarborough, the Earl of Mexborough, the Earl of Londesborough, and variou rothers of high office and dignity in the masonic body. Few however of those great patrons attended, being present at a ball held in York at the same time, of the Yorkshire Union Hunt Club. Various banners with masonic emblems and devices adorned the orchestra. Horabin's quadrille band, and the band of the Second West York Yeomanny Cavalry, enlivened the company with their performances. Nearly 500 ladies and gentlemen were present, amongst whom were G. Addison, Esq., L. Laycock, Esq., C. Lee, Esq., C. Wand, Esq., E. Wand, Esq., G. H. Leather, Esq., T. Routledge, Esq., Mayor of Pontefract, and Ald. Farrar. Dancing commenced at nine o'clock, and was continued many hours. The scene was striking and heautiful, far surpassing anything of the kind seen in Bradford before. The refreshments were provided by Mrs. Browett, of Queen's Hotel, and the wines by Messrs. Douglass and Baird. THE TEN HOURS' LABOUR MOVEMENT.—On Monday evening a meeting was held in the Temperance-hall, to

consider the propriety of petitioning Parliament for a ten hours' bill, and a restriction on the moving power. Mr. Alderson presided. Mr. R. Holmes, of Manchester, and the Rev. J. R. Stephens, of Stalybridge, attended as a deputation. A small charge was made on admission, as the committee are in debt on account of the last application to Parliament in support of Mr. Cobbett's bill. Inquests.—Yesterday week, inquests were held before Mr. Ingham, at the house of Mr. William Booth Shuttleworth, Crown Tavern, Temple-street, on the bodies of John Hay, aged sixty-nine, and James Dyson, nineteen, who died at the infirmary on the day previous. It appears that the deceased John Hay, whilst he was working in a stone delph at Kirkheaton, on Thursday morning, the 29th ult., got shockingly crushed by some clay accidentally falling upon him. He did not survive long after his removal to the infirmary. James Dyson had been brought to the institution about three weeks before, in consequence of some severe injuries which he sustained by being caught by the machinery in the brushing mill of Mr. Buckley, New Delph, Saddleworth. Verdiets were returned in accordance with

the above facts.

A Nuisance.-On Saturday last, at the Magistrates-office, a complaint was made against Jas. Armitage, under a clause in the Town Improvement Act, for using a building below the turn-bridge as a knacker's yard, which building was not used for such purpose prior to the passing of the act. It appears that the place was formerly used as a melting house, and the defendant had not obtained nor applied for a license to occupy the premises as a knacker's yard. Mr. Hobson, clerk to the Board of Works, proved that the premises were situated within the limits of the Improvement Act, and that there were certain nuisances upon them. He stated that he called on the 27th of Sept., and found the defendant skinning a horse, the head and feet of which were cut off, and the assistant was throwing to the feet out of the yard. In one corner there were some pigs feeding off raw entrails, and in another spot there was a quantity of blood and manure that had been brought from another slaughter-house. Mr. J. I. Freeman appeared above subject, in the National schools, Honley, on the evenon behalf of the defendant, but the charge was not denied. Mr. Clough, the law clerk to the Commissioners, pressed for a full penalty, as the defendant had been convicted once before for an offence relating to some other premises.

Mr. Morgan, of Leeds, and Mr. John Haigh, of John Clay, Mr. Thomas Robinson, and Mr. Wm. Sykes, on behalf of the Tory-Whigs. We have been favoured with the particulars of the actual results, after careful examination, as given below. As a guide to a correct understanding, it may be stated that there were 1,415 voters on the list of 1852, which divided themselves at the recent election thus:

-Goderich 675, Starkey 593, neutral 157; giving Goderich a majority of 82. Favourable as the final issue is for Lord Goderich's party, the list might have been further augmented had the voters promptly paid their poor-rates. At least 70 voters are struck off the register for 1852 for the non-payment of their rates, and more than 30 from this cause and for non-attendance to substantiate their claims on the second day of revision.

CHURCH.-On Monday afternoon last, the corner-stone of a new Unitarian church now being erected on a site in Fitzwilliam-street, which had been granted by Sir J. W. Ramsden, Bart., at one-half the usual rent charge of ground in that locality, was laid by Mark Phillips, Esq., formerly M.P. for Manchester. The members of the congregation worshipping in Bath-buildings chapel, together with the sions," and the "Philosophy of the Earth and its Wonders," we minister, gave out a hymn, which having been sung, he proceeded to address the assembly on the favourable circumstances under which they were met, compared with the trials and difficulties which Unitarians of former times had to bear, when they were obliged to build their conventicles in the lanes and alleys of a town, and to make them safe from the intrusion of the civil magistrate. The Rev. Dr. Beard, of Manchester, offered the dedicatory prayer, and Mr. Wm. Paul England explained the various documents, &c., to be inserted in a cavity prepared for them in the stone. They consisted of a copy of the Inquirer, and a copy of each of the Huddersfield papers. The documents had reference to the present era, and the circumstances attending the laying of the foundation stone of that building. There was also a list of the names of the present minister, officers, and subscribers, and of the architects and others employed in erecting the church, which is intended to be built in the high pointed Gothic style. Its length will be 72 feet and its breadth 38 feet. Mr. J. Ibbetson, on behalf of the congregation, presented Mr. Phillips with a silver trowel bearing the inscription, "Presented to Mark Phillips, Esq., of Snitterfield, in the county of Warwick, on the occasion of laying the corner stone of the Unitarian pated, which the chairman accounted for from the fact that | church, Huddersfield, October 3rd, 1853.".
