MIRFIELD.

FIRE AT MIRFIELD.—About one o'clock yesterday morning a fire broke out in the yarn dryhouse of Sands Mill, Mirfield, which gutted the building. The damage to building and material amounted to about £350. Great praise is due to Messrs. Firth and Sons, of Cleckheaton, for their "Telegraphic" arrival at Mirfield, as their fire engine was on the premises before the return of a messenger dispatched on horseback. Altogether six engines were engaged in suppressing the fire.
