

BIG TRAMWAY SCHEME AT DEWSBURY.

An electric tramway scheme to connect Dewsbury, Heckmondwike, and Cleckheaton, and possibly Ravens-thorpe and Mirfield, is being considered by the local authorities of the three first-named towns. The line will pass through the Spen Valley, and will therefore traverse part of Liversedge, whose support it is hoped to obtain. The project will be in opposition to that of the British Electric Traction Company, of which the Clerk to the Liversedge Council is one of the local agents.
